Gas 62,318,488 m³
Vehicles 18,171,848 kt

Present and potential water conflict hotspots

- As water supply decreases, tensions will increase as different players try to access common water supplies
- Many conflicts are transboundary in nature, either between states or countries

Note: although there have been rising tensions globally, many areas demonstrate effective management to diffuse the situation and create more equitable and sustainable demand-supply balance, such as the Mekong River Committee, & the Nile River Initiative

FÓRUM IBERO-AMERICANO DE
SUSTENTABILIDADE

Goiania/Brasil 2018

The Cleaning was done in 6 stages with 16,550 Participants

April = 100
June = 200
July = 2000
August = 10,000
March = 4000
November = 250
